AFFAIRS OF THE RAILWAYS.

Personal, Local and General Notes. J. D. Layng, vice-president of the Cleveland, Cincinnati, Chicago & St. Louis road, is West looking over matters.

Chairman Blanchard has called a meet-ing of the passenger department of the Cen-tral Traffic Association in Chicago, July 2. The Ohio, Indiana & Western announce that they will give their annual excursion to Niagara Falls on Aug. 6, the rates being the same as last year.

A company has been organized to build a road from Sioux Falls, via Yankton, to North Platte, Neb. The incorporators are mostly Nebraska men.

The uniform classification committee meet in Saratogo July 15. It is expected that the Trans-Missouri Association will be represented at the meeting.

Eight of the Union Pacific's branch lines will be included in the reorganized Oregon Short-line & Utah Northern company, covering 1,399 miles of road. Harvest excursions to the Northwest are

announced for Aug. 6 and 20, Sept. 10 and 24 and Oct. 8. This means that passenger rates will again be demoralized. Under the Wabash reorganization, Frank Palmer, well known in this city, is well

taken care of. He is to have full charge of the company's business at Chicago. The C., I., St. L. & C. has just completed a contract to haul five hundred car-loads of Pittsburg coal from North Bend to Indian-

spolis for the illuminating gas-works. The trunk-line presidents meet in New York to-day to consider several important questions, among other things the acceptance of the resignation of Commissioner

The track-layers of the Louisville, New Albany & Chicago are pushing the extension from Howlands to Massachusetts avenue briskly, reaching Lincoln avenue yesterday. Commissioner Rich, of the Western Colo-

rado and Southwestern Association, has tendered his resignation, to take effect July . Who will be his successor has not been decided upon.

The Louisville, New Albany & Chicago people have the deed for their gravel pit, a few miles north of the city, and a steam shovel is now loading seventy-five carloads of gravel a day.

has for some years been the superintendent of telegraph on the Bee-line: President Roberts, of the Pennsylvania lines, is said to favor Chairman Cooley, of of the Interstate-commerce Commission, as the successor of Albert Fink, as chairman

of the Trunk-line Association. The consolidation of the Bee-line and the Big Four leaves H. M. Cook, who, for many years, has been chief train despatcher and superintendent of telegraph of the C., I. St. L. & C. lines, out in the cold.

The Denver & Rio Grande Western will expend over \$3,000,000 in the next few months in building seventy-tive miles of new road between the Colorado State line and Ogden, and improving the rolling

The statement of the business of the Pennsylvania Railroad Company's lines east of Pittsburg and Erie, for May, 1889, shows a net loss of \$200,832, being a loss as compared with the same period of 1888 of

The C., V. & C. was one of the roads which forced the Wabash to the wall, financially, and unless all signs are at fault the Cleveland, Cincinnati, Chicago & St. Louis Railroad Company will find it an elephant It is stated that the Evansville & Terre

Haute road is suffering in its business east bound through a diverting of the business which should come over that road north to the Louisville, Evansville & St. Louis road, Mackey's new acquisition. The Pennsylvania management yesterday

notified agents of their lines in the Westand their connections that all restrictions on traffic had been removed, and they will receive and forward all freight as prior to their troubles from the floods.

M. E. Ingalls, president of the Consoli idated lines and the C. & O. road, will return from Old Sweet Springs to-day, to be on hand Friday to assist in appointing additional officers of the Cleveland, Cincinnati, Chicago & St. Louis road.

It is stated that under the reorganization of the Wabash, George W. Stevens, division superintendent, is to be promoted to a higher position. No one will question that he has the ability to fill any position which the directors choose to put him in. The Indianapolis Joint Weighing and In-

spection Association gives employment now to fifteen men, but the number is not sufficient to do the work as thoroughly as it should be done to reap the full benefits of weighing and inspecting freights shipped. Receiver McNulta, of the Wabash, declines to remove his office, and that of his assistants, to St. Louis. He will remain in Chicago until the affairs of his receivership are settled. The work of auditing his accounts and straightening out matters is

now in progress. Harry Bronson, chief clerk of H. M. Bronson, general passenger agent of the Ohio, Indiana & Western road, has re-signed and goes to Cleveland to take a position in the passenger department of the Bee-line. He is succeeded on the O., I. &

W., by Samuel Hice. Superintendent Van Etten, of the Buffalo division of the Erie system of roads, has resigned, to take effect July 1. It is understood that he will retire from railroad service. C. A. Brunn, of the eastern division of the N. Y., P. & O., is named as Mr. Van Etten's probable successor.

Rumor has it that one of Ohio's important railroad companies is, in a quiet manner, figuring to secure control of the Toledo, St. Louis & Kansas City road. As yet the negotiations have not proceeded so far as to make it safe to give even a guess as to the result of the negotiations.

Now that the debris is cleared away and the real damage to the road-bed of the Pennsylvania road becomes more discernible, it is shown that the damages from the flood, though large, are not so serious as had been thought, and that estimates heretofore have been much too large.

The Wagner Sleeping Car Company hope to get their new coaches out so as to put them on between Chicago and Cincinnati over the Big Four as early as July 1, or at furthest by July 15. President Ingalls had no contract with the Pullman company. Consequently there will be no delay on that score.

Northern Pacific cars are becoming quite numerous on Indianapolis roads. Two years ago one was seldom seen, but of late years people from Ohio and Indiana have been emigrating to the points on this road, and the results of their labors are seen in the shipments of the products of the Northwest into the Central States territory.

While little is heard, the last few weeks, as to the Cairo, Vincennes & Chicago road being included in the Bee-line-Big Four consolidation, it is not questioned in certain legal and railroad circles that one of the objects of the deal on the part of Drexel, Morgan & Co. was to unload this unprofitable property on some corporation that would be able to help them out of the mire.

The Pennsylvania has its limited running again between Chicago and New York. This train was put on last Monday, after having been off three weeks. This is the first time in the history of the road, says one of the officials, that a train was discontinued for that length of time, and probably the same thing will not occur in the next fifty years.

The rate troubles in the Northwest have demonstrated that the Chicago, Milwaukee & St. Paul road can no longer be classed among the rate-disturbing lines. A little while ago that road was charged with bringing on all the rate wars, but the late action of the management shows that if their policy of doing business was ever of such a character a decided reform has been

brought about. At every railroad center of importance, except Indianapolis, fast freight-line offices, and the freight and passenger offices generally, close at 2 P. M. on Saturday. Shippers have expressed a willingness to have goods to be shipped on that day at the freight depots by noon, providing the clerks, etc., can get a few hours' of pleasure dur-ing the summer months by their doing so. and all the agents but two have consented

to such an arrangement, but their objections defeat the plan. It was noticed that the only change made in the preliminary directory of the Cleve-land, Cincinnati, Chicago & St. Louis road on Monday was the substitution of James Barnett for T. P. Handy. This change was received with pleasure at Cleveland, as the Bee-line directory, even when consolidated with the Big Four without the name of James Barnett in it, would seem to be lack- | lady living in the family of the deceased,

ing one essential element of success, so long has Mr. Barnett been interested in the welfare of the Bee-line.

Commencing with Sunday next, train No. 31, over the Cincinnati, Hamilton & Dayton, will be run daily, leaving the Union station at 2:55 P. M. instead of 2:45 P. M. as now. This is done to catch the Lake Erie & Western, and the Cincinnati, Wa-bash & Michigan connections and to give the through passenger from the north op-portunity to take dinner here, the train remaining here twenty minutes.

In straightening out the affairs of the Cincinnati, Hamilton & Dayton company the directors find that there is a stock debt of \$1,573,641, which was imposed upon them by the Ives-Staynor deal. There is also a debt amounting to \$889,500 which is in suspense. One or two years of business as good as that of the last year will enable the directory to get the property on as good a financial basis as prior to the Ives-Staynor

It is stated that President Wade, of the Cincinnati, Wabash & Michigan road, is fully as anxious to have the Mackey syndicate take the property as the Mackey peo-ple are to get it. One thing is pretty sure to result from the pending negotiations: that is the building of the link between Rushville and Anderson, which will give the C. W. & M., in connection with the Evansville & Richmond road, now building, a southern outlet.

With the retirement of K. H. Wade from the general superintendency of the Wabash road the company loses a very valuable man. In transportation matters he is with-out a superior. He is the inventor of what is known as the "manifest" method of moving freight trains, and also the inventor of the Standard signal, and it was through his influence largely that Standard time was adopted by the roads after being suggested by the editor of the Official Railway Guide.

CULLINGS FROM THE COURTS.

The Sentinel Compromises with Mrs. Hiatt, Who Sued for Libel.

The libel suit of Mrs. Mary E. Hiatt vs. the Sentinel Company, pending in the Circuit Court, was called for trial yesterday morning, when it was compromised, the defendant paying the plaintiff \$100 and costs of suit, and the plaintiff thereupon T. J. Higgins is to be the superintendent of telegraph of the Cleveland, Cincinnati, Chicago & St. Louis road. Mr. Higgins ive investigation of the outrages committed on the inmates of the Insane Hospital, through the agency of the gang then in control of that institution. The sympathies of Mrs. Hiatt, then one of the matrons, had been aroused, and in regard to the outrages she had spoken and written in bitter denunciation, and subsequently she exposed them in her testimony before the committee of investigation. The Sentinel Company published the statement that she herself had been at one time under treatment in the hospital, meaning that she had been insane. The result is a complete vindication of Mrs. Hiatt.

Convicted of Counterfeiting. The trial of Morton Howell, indicted for circulating the now famous counterfeit \$10 bill, was concluded in the United States Court yesterday morning, and the jury, after being out a couple of hours, returned a verdict of guilty. Judge Woods withheld his sentence for the present. Howell was convicted on the testimony of Alonzo Barrett, of Shelbyville, who was sent north two weeks ago for circulating the same kind of bad money. He was brought back from prison to testify, and he told the jury that he received the money from Howell. The treasury agents say that Barrett's turning State's evidence may result in sev-eral more arrests. The plates from which the bills were made have not yet been located, but it is expected that they will be turned up in a short time.

Election Cases on Trial. The United States Court, yesterday, be-

gan trying the violators of the election laws indicted by the last federal grand jury. The case against Fanner Fisher, of Shelby county, was called first. Mr. Fisher is charged with bribery, and he is one of those against whom corrected indictments were found. After a portion of the evidence had been heard the case had to be contined on account of the absence of a witness. William Owens, of Hamilton county, also charged with bribery, was then placed on trial. The hearing of the evidence in the case began last evening, and the case will probably consume most of today. Both cases are being tried before a

Suit Against a Saloon-Keeper.

Susan B. Benson filed suit, yesterday, against John Schanb for \$5,000 damages. The defendant is a saloon-keeper in West Indianapolis, and the litigation is one of a series of suits that have arisen out of a shooting affray that occurred on Sunday. Jan. 15, 1888. Schaub, it is claimed, sold liquor to one Edward Neymeyer, who, in an intoxicated condition, shot at a street-car in which Mrs. Benson was riding. The ball hit her in the shoulder, and one suit which followed was decided in her favor. The case in question is instituted against the second saloon-keeper who sold the liquor to Neymeyer.

The Probate Record.

Frederick Kræckel was yesterday ap pointed administrator of the estate of Conrad Haldy, on bond of \$1,100. The will of Mary F. Wands was admitted to probate. In it all of the property of the testatrix is given to her brother, James W. Wands. The will of Samuel Morrison was also probated. All of his personal and real property is bequeathed to deceased's widow, Rachel E. Morrison, who is appointed his sole execu-

Complaints for Divorce. Mary E. Gregory and William C. Gregory were granted a divorce yesterday by Judge Taylor, the complaint being brought by the wife on grounds of cruelty. Judge Walker also gave a decree to Margaret M. Donaldson, who charged John H. Donaldson with having abandoned her without cause. In the Superior Court Maggie Scott filed suit against Moses Scott, petitioning for a divorce on grounds of abandonment and failure to provide.

A Severe Sentence.

Amos D. Loy, who has been on trial before Judge Irvin for assault on Calvin Petty, in Hendricks county, with intent to kill, was found guilty by the jury yesterday and given four years in the penitentiary, with a five-hundred-dollar fine attached. Loy is said to possess considerable means, and will be able to pay the fine.

Sent to the Insane Hospital. Casper Spiegelworst, fifty-two years of age, and Margart Pullen, forty-eight, were adjudged to be of unsound mind yesterday and committed to the Hospital for the In-

A Judgment Against Bondsmen. In Judge Walker's court, yesterday, Elizabeth Langsdale was given a judgment for \$3,349 against the bondsmen of John E Sullivan.

The Court Record.

SUPREME COURT DECISIONS. 14078. Board, etc., vs. State ex rel. Lewis T. Michener, Attorney-general. Hancock C. C. Reversed. Coffey, J.—The question is whether or not the State, on relation of the Attorney-general, may recover penal-ties collected by a county on delinquent taxes. After reviewing Sections 6426, 6427, 6457, 6458, 6459, 4926, R. S., 1881, held that the 10 per cent. penalty, assessed for the nonpayment of taxes, attaches to and becomes a part of the tax. Under this rule, the penalty assessed on taxes levied for county purposes belong to the county, while the penalty assessed on taxes levied for State purposes belong to the State.

12040. Frank Swiney vs. State. Howard C. C. Reversed. Olds, J.—An affidavit in a prosecution for assault and battery, not sworn to, is bad on a motion to quash.

13768. Sylvester B. Moore vs. William W. Hammons. Jay C. C. Reversed. Elliott, C. J.—An objection that an assignment of errors is not properly in the record, because it is pasted to the transcript, is too technical to prevail. 2. In an action by a husband for the seduction of his wife, an instruction that if she consented to the intercourse he cannot recover, is errone-

14959. Wm. Benson vs. State. Clark C. C. Affirmed. Berkshire, J.-When in a prosecution for murder the theory of the State is that the accused wanted to marry a young

but the young lady refused on the ground that she would not marry as long as deced-ent and his wife lived, evidence of an assault on the wife following shortly after the killing of her husband, is competent. 2. Where the defense introduces evidence to show that the accused was of unsound mind when the crime was committed, evidence by the State tending to show a motive or purpose for the killing consistent with reason and soundness of mind was

competent. D. Lewis, administrator. Decatur C. C. Affirmed. Mitchell, J.—Action by an administrator against appellant for wrongfully seizing and converting certain goods which were mortgaged to the plaintiff to secure his estate against loss because of the decedent having become surety for the mortgagor. Appellant was a judgment creditor. Judgments on the surety debts were taken against the estate. Held: That it was not necessary that the administrator should have first paid the debts in order to show damage to the estate. It was unnecessary for the administrator to secure an order of court before procuring the indem-

13383. Annie C. Doyal vs. Mary F. Landers, et al. Montgomery. C. C. Rehearing denied. Elliott, C. J.—Stenographer's manuscript cannot be incorporated into the record by reference and the use of the words "here insert." It must be incorporated in the bill of exceptions before it is

To Return to Africa.

Carl Steckelmann, who recently returned from four years of trading and traveling in equatorial Africa, was in the city yesterday making his final arrangements for a return to Mayumba to take charge of an English trading company, the senior partner, R. M. Evans, having died. The cablegram from Liverpool requires Mr. Stecklemann to at once come to that city, and he expects to leave in three or four days. At Liverpool he will take a steamer for Mayumba, and the voyage will take six weeks. This is not because the journey is so great, but from the fact that African steamers make frequent stops along the coast, and as there are few harbors and a heavy surf the taking on and putting off cargo requires considerable time. Mr. Steckelmann's former experience in Africa will be invaluable to him, and he was able to stand the climate. He notes, as significant of the deadly character of the climate, that of eleven white men whom he knew in one district to be alive on the 13th of August, 1888, nine have since died.

Drowned in White River.

Julius Miessen, ir., the youngest son of Julius Miessen, a confectioner and baker living at No. 180 Virginia avenue, was drowned in White river, near Maywood, yesterday afternoon. In company with Frank Gates and one other boy, Miessen. who was sixteen years of age, had attended a picnic at Riverside Park, five miles south of the city, and at 3 o'clock they went in bathing. None of the party could swim with any degree of certainty, and all three were caught by an undercurrent and carried into water beyond their depth. Their cries for help were heard by Albert Kyte, who was near by, and he succeeded in rescuing Gates and the third boy, whose name could not be as-certained. Kyte then plunged in to save Miessen, but before he could reach him the unfortunate boy had sunk. Divers could not find the body up to a late hour last night, and the search was abandoned until this morning, when it will be continued.

Death of Mrs. W. T. Barbee. Mrs. Annie Duncan Barbee, wife of William T. Barbee, of Lafayette, died at her residence, in that city, yesterday morning, of consumption, after a lingering illness. Mrs. Barbee was the daughter of Robt. B. Duncan, and a sister of John S. and Robt. P. Duncan and Mrs. John R. Wilson, of this city. Until after her marriage, Mrs. Barbee lived in Indianapolis, where she had a large circle of friends and was universally admired. She was a lady of lovely character and rare graces. She has been in failing health for some time. and her death was not unexpected. She leaves two children, both boys. Her death will be sincerely mourned by all who had the good fortune to know her. The funeral will take place in Lafayette Friday morning, and the remains will be brought to this city for interment.

Indianapolis Republican Club.

The Indianapolis Republican Club was to have been addressed last night by Attorneygeneral Michener, and a good attendance was present, but an alarm of fire, sounded a block away, at 8 o'clock, proved to be more attractive than the oration to the majority, and about three-fourths of the members left. In view of this fact the address was postponed until the regular meeting, next Wednesday night, and the evening was spent in the transaction of routine business, followed by an hour in social conversation. The exercises were enlivened throughout by musical selections from a local serenading club.

Will Work but Nine Hours.

It is reported to be the intention of the members of the United Brotherhood of Carpenters and Joiners to work only nine hours a day, and eight on Saturdays, on and after July 1, which decision has been made known to all local contractors and builders. The union men in this line of work comprise only about one-third of the entire number in the city, but, it is said, all are agreed upon the nine-hour system.

Judge Finch's Injury. The injury Judge F. M. Finch received by his fall a day or two ago, it is said, will make his left leg useless. But this cannot be definitely determined for several weeks. His physicians yesterday made a thorough examination of the fracture of his thigh, and while his advanced age of seventy-

eight years is against him, it is thought his excellent health and regular habits will be of great benefit to him in his affliction.

State Board of Equalization. The State Board of Equalization yesterday heard the petition of the Pennsylvania Railroad Company to have the assessments of its lines in the State lowered. Felix Statapen, chief engineer of the sytem, and Louis Gilbert, assistant general counsel, and Col. H. B. DuBarry, assistant engineer of the Panhandle, appeared for the company.

The Excess of Widowers. Memphis Avalanche,

The fact that there are more widowers than widows is easily accounted for. By the laws of polite society the widows are forbidden to propose marriage. There is no law on earth, however, to prevent a widower from doing so. The trouble is they are in the habit of making love to all the pretty, marriageble women who get within their reach.

The National Rum Rlossom. Atlanta Constitution.

The selection of a national flower should give us very little trouble. The recent elections in Pennsylvania, Rhode Island and six other States, point to the rum blossom as the people's choice.

Reduce the Surplus. Pittsburg Chronicle-Telegraph.

The biting dog has commenced his season of pernicious activity. Now is a good time to reduce the surplus of worthless curs. Dogs not valuable enough to buy a muzzle for should be converted into soap grease.

Where Their Faith Rests.

Detroit Tribune. The Unterrified: We have more faith in Calvin 8. Brice than we would have in simply Calvin S. Brice.

A CLEAR EXPLANATION. One of the Leading Professional Men of the

City Defines the Great Danger that is Threatening Americans. A well-known physician while at the club the other evening, was approached by one of his friends, who abruptly said:

"Doctor, what is P a resis, anyhow!" The doctor looked at his questioner sharply for a moment, motioned him to a seat, and said: "Paresis, my friend, is, in brief, 'consumption of the nerves and brain.' It has many ways of manifesting itself, and almost innumerable

A number of prominent club men gathered round to hear what the eminent doctor had to say on this subject, which is at present so agitating the community. The doctor continued:

"The man whose hand trembles as he lifts his glass of wine has the sure symptoms of Paresis. The woman who feels a sinking sensation in the midst of her social cares is entertaining an unwelcome guest-none other than the demon Paresis. What causes it! Overwork, excitement, indulgence, high living, and dissipation in all its forms. A pain in the head, inability to remember names or faces, periods of melancholy, all these are the symptoms of Paresis. It is a terrible thing! Naturally you ask, What can we do! Be careful of your manner of living. Do not overtax your energies or vitality, and take the only discovery which has over been take the only discovery which has ever been made for Paresis, either in its first or last stages, which is Paine's Celery Compound. I have seen a great deal of this wonderful dis-covery, which was made by the late Prof. Phelps, of Dartmouth College, and which is so highly recommended and indorsed by the medical profession and scientists generally, and I believe if men and women were to use it carefully and systematically, they would certainly avoid the first symptoms and final stages of Paresis, with all the horrors which they bring."

A serious expression came over the faces of the listeners as the doctor spoke, and many men who had been comparatively gay and thoughtless be-fore were serious when he concluded. The revelation of the fact that Paresis has been so alarmingly increasing throughout America during the past few years, has necessarily caused apprehension on the part of many men and women who have believed themselves to be in perfect health, and the timely remarks and valuable advice given by the doctor, as above, should carry their lesson to the thousands who may have the seeds of this terrible disease and who do not know it.
